

## VT9109-S Installation Guide

### 1 - Pole/Stand Assembly

Single: Insert the pole into the stand and tighten screw in back of stand using 7/32 allen wrench.  
 Double: Follow above step, insert second pole inside first pole at preferred height and tighten screw with provided 3/32 allen wrench.

### 2 - Collar Adjustment

Loosen the knob on the back of the collar so that the collar is able to slide up or down. Find the desired height and re-tighten the knob. \*If you are assembling the double, do this for both knobs

### 3 - Bracket & Tilt Assembly

Carefully remove base from flat panel monitor. (See monitor user guide) Attach adapter plate (75MM or 100MM) to the tilter mechanism, using four (4) 10-32x3/8" Flat Head Philips screws.

### 4 - Attach Tilter/Bracket to monitor

Align tilter and VESA bracket with hole pattern on back of monitor. Use the four (4) M4-12 Philips Pan Head screws to attach the plate to back of LCD

**VT9109-S Installation Guide****5 - Monitor to Pole Assembly**

After securing the plate to the flat panel insert the tilter into the arm.

Screw the 10-32" Philips Pan Head screw and washer and fasten them to the hole in the under-side of the tilter shaft, locking the monitor in place

**6 - Tilt Mechanism Adjustments**

Tilt the monitor so it faces upward and locate the set screw under the tilter. Insert the 7/32" Allen wrench into set screw to adjust the tilt friction

\*To tighten friction turn the wrench to the right.

\*To loosen, turn wrench to the left
